

TOUR TO HITA

I recommend the visit in the first weekend of July, when the Hita Medieval Festival, declared of National Tourist Interest is celebrated. The entire population is dressed as medieval times and celebrate market, jousting of knights and a theatre performance at night in the main square. Since 2016 is included in website "The Most Beautiful Villages of Spain".

What do we visit?

But in Hita we can visit more, its peculiar heritage, such as the "bodego" a traditional cave house in the mountain, its church of Saint John or the house-museum of Arcipreste, one of the most important medieval writers of Spain.

DURATION:

Generally it is usually half day, duration approximately 1 hour and a half. It can be combined with other destinations such as black architecture, Jadraque, Guadalajara capital, Torija or Brihuega.

If you want you can visit a cheesemaker
